## *GPRRA Thanksgiving Match – November 5, 2019*

Dear Great Pyrenees Friends,

We are now in November and though we've made good progress, we still have a long way to go. The story of Dylan is a special one and the video of Dylan sleeping is one of our favorites. Once in our care and medically treated, Dylan can finally sleep peacefully and happily snore.

Dylan came to GPRRA in April from Upson County as a stray. He had one of the worst cases of skin issues we have seen in a very long time. He was missing most of his hair, his skin was very red, and the smell could knock down an elephant. He was positive for Sarcoptic Mange and had to stay in isolation for a month. To make things even worse, he turned out to be heart worm positive like so many dogs we take in. Our goal was to get him healthy enough and gain enough weight so we could start his heart worm treatment and give him the best life possible.

One month to the day he came into the rescue group, an amazing foster, Michelle, sprung him from the kennel and took him into her home. Michelle and her father continued to provide Dylan with warm cooked meals, a lot of love and structure to prepare him for his forever home. It took less than 2 weeks before he found his forever home.

Kalen, a GPRRA Volunteer and Dog Walker got to spend time walking Dylan while he was in our care. She fell in love and arranged to set up a meet n greet with her rescue girl, Ellie, at Dylan's foster. It was love at first sight. Ellie had gone through a health issue similar to Dylan's so she knew the road to recovery was going to take some time. Ellie and Dylan were a great match and Dylan had found his new home. Dylan is now TheeOh.

TheeOh's physical and emotional transformation is remarkable. As the pictures show, he is now a very healthy and happy boy.
