

The Pyrenees Post...

spreading the word about the Southeast's best kept secret.

GPRRA Update - March 29, 2021

Dear Great Pyrenees Friends,

We are approaching 100 rescues this year already and there is no rest for the weary. Last week, outside Richmond Va., a home hoarding 62 PYR mixes was seized. We have vans driving up on Thursday to bring back a group. We also rescued 6 PYR/Lab puppies that are 6 weeks old from Alabama last week. In addition, a wonderful young couple adopted two of our PYRS about a month ago only to discover, before the planned spay surgery, that the female must have been pregnant right before rescue. Our adopters bravely had the unique experience of birthing 10 healthy mix puppies that are now thriving.

Once again, I do not have enough superlatives to shower on our transporters, walkers, adoption team, fosters, board members and other volunteers. Most have full time jobs yet many seem to work full time for GPRRA. It must be all the \$\$\$ we pay that always totals zero.

As always, we need fosters in the Atlanta area and our story of the month is our magnificent intake director, Sabine. Sabine was fostering Chief and, like so many before him, the heart overcame the head and Chief became Sabine's magnificent 7th foster failure, which we thought was a GPRRA record until we realized Marla has failed 9 times and Sherry may have more than that!! Sabine may not have the 7 DWARFS but she now certainly has the 7 GIANTS.

Thanks for your continued support.

John
GPRRA President and Founder
