

The Pyrenees Post...

spreading the word about the Southeast's best kept secret.

GPRC Update - June 18 2021 - Festus

Dear Great Pyrenees Friends,

This is Festus, a sweetheart PYR that we think was hit by a car and suffered a severe break in the upper third of his femur. The Georgia shelter where he was held kept him for 7 days before he was released to us. The good news is our all star orthopedic, Matt Corse, interrupted his full schedule and successfully repaired Festus's leg as soon as we took ownership. In a 3 hour surgery, Matt wrapped the bone with wires, inserted a pin down the center and placed a 12 screw bone plate.

We now need a foster or adopter to take Festus through his recovery. He will require 8 weeks of limited activity which means easy walks. Sutures will be removed at 2 weeks and after his x-rays at 8 weeks, he will be released for normal activities. Please respond to this email if you will consider taking in Festus and Marla will provide additional medical info.

We will have 16 in boarding by Monday and desperately need fosters and transporters. Please join our fabulous team.

John
GPRC President and Founder
