

# The Pyrenees Post...

spreading the word about the Southeast's best kept secret.

## GPR Update - June 8 2021

Dear Great Pyrenees Friends,

We are about to pass 150 rescues this year and, once again, our dedicated team continues to be beyond remarkable. We have so many success stories where we see the resilience of PYRS in horrific environments that rapidly respond to necessary medical care and TLC to become stunning Gentle Giants.

Three year old Clay came to us from a shelter and was in rough shape with parvo. He is now cured and ready for adoption. Everybody's favorite, Kenny, came to us with torn ACLs in both legs and occasional seizures. A wonderful family in south Florida has adopted Kenny and will take him through his surgeries there. We just rescued 8 PYR/Anatolian Shepherd puppies that are 12 weeks old and have a few 4 to 9 month old puppies incoming. It took us about 24 hours to adopt out Socks, a big goofy black PYR with white feet.

GPR's greatest need is foster families. We have a terrific group of dog walkers at PetLodge Resort where we board our PYRS until they go to foster but our rescues need a home environment to prosper. The duration in foster is usually short as we have many applicants and the quicker we get an assessment from the foster, the quicker we can adopt our PYR.

Please join our team and get involved. The experience will be personally rewarding.
