### Approved Applicants vs. Visitors

People who have put in an application, are working with an adoption coordinator and are approved will be able to adopt on adoption day. Visitors are always welcome to walk around and learn about the breed but are highly unlikely to leave with a Pyr since an application must be in our system and must be approved. Once an application is received, you will work closely with an adoption coordinator to get approved and decide what a good fit is for you and your family.

### Other General Information:

\*Bring a pen and notebook if you want to remember questions to ask and jot down any notes.

\*Only ONE family will meet any particular Pyr at a time. You may wait for your turn, at a distance of over 6 feet, or you may move on to meet others and come back. We encourage you to talk with the Pyr handler, which may be one of our walker volunteers or a foster. You may ask additional questions to your adoption coordinator or any other GPRA volunteer.

\*If you are bringing your current dog, please make sure follow appropriate dog introduction etiquette. Remember, just like people, some dogs may be friendlier than others.

# It Doesn't Happen Overnight

The 3/3/3 rule is a general guideline for the adjustment period of a dog after adoption.

Every dog is unique and will adjust differently.
