GPR Update - February 3, 2025

□ Congratulations to all as GPR turns 15 this February! □
Thank you for being a part of the effort to help the GENTLE GIANTS we all love!

Dear Great Pyrenees Friends,

January has started the year with a bang! We rescued 38 Gentle Giants in January alone, including a mother and father and their 10 newborn puppies that were in a bad situation.

We also rescued three 5-month-old feral puppies that we now have in an intense and expensive program where they will be socialized. Once again, our incredible group led by Marla and Sabine moved quickly to save the three and immediately transitioned them into an environment where they are hand fed and nurtured to build their confidence to become excellent family members. We also have five rescues getting various surgeries that will not only save them, but will allow them to lead their best and fullest lives.

We often communicate how quickly we make decisions and move on the PYRS in the most need that others simply can't take. This is, in great part, due to the generosity of the many that donate both their time and finances. January is a testament to our Thanksgiving Match and we cannot thank you enough.

We have a real need for key volunteers, so please consider it if you are able. You can see the needed positions below. Visit the [Volunteer page of the GPR website](#) for more information and to submit an application.

It's going to be quite a year and we hope we can properly communicate how all the hard work pays off.

Thank you all for your continued support of GPR.

John,
GPR President and Founder
